We Served

# We Educated

The Prevention gap report shows that worldwide an estimated 1.5 million adults have become infected with HIV every year for at least the past five years and that the number of new HIV infections is rising in some regions. The report shows that HIV prevention efforts must be reinvigorated if the world is to stay on the FastTrack to ending the AIDS epidemic by 2030.

**JOIN NACAC SOCIAL MEDIA CAMPAIGN**

**HANDS UP FOR #HIV PREVENTION**

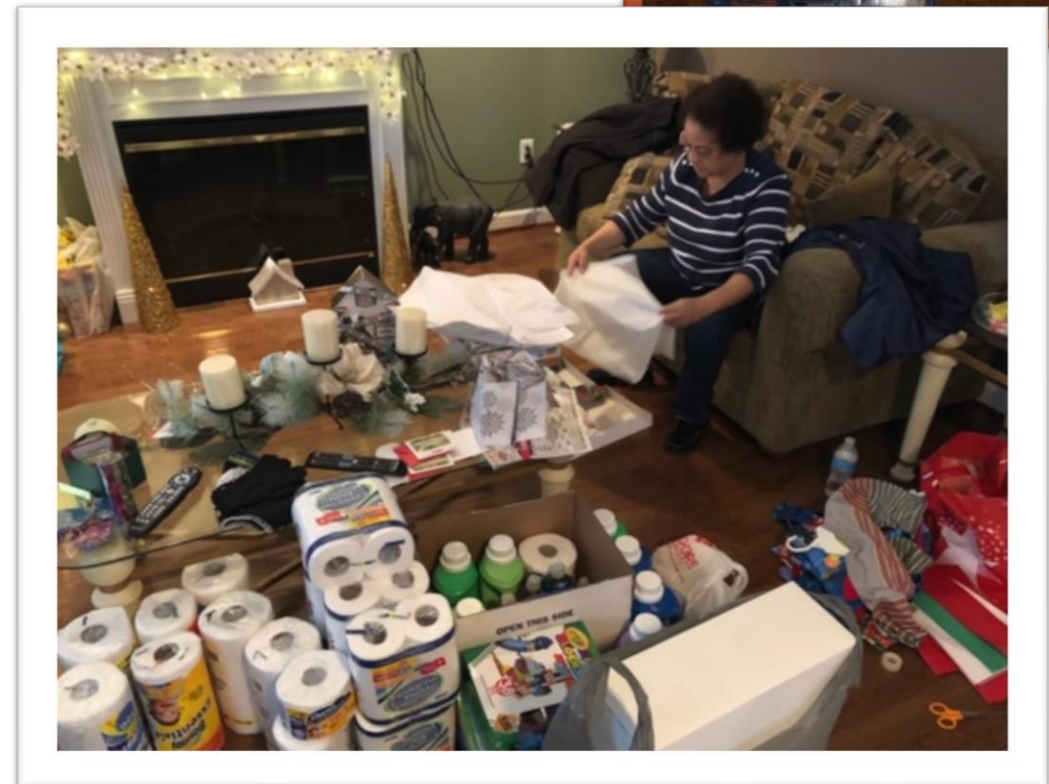

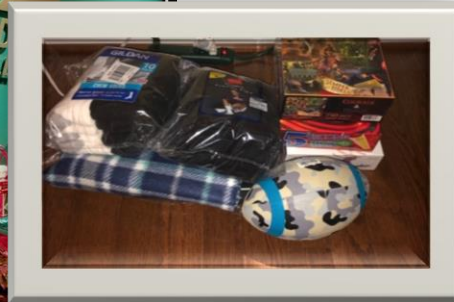

**WHAT WE NEED YOU TO DO**

Take a photograph of a word or short phrase written on the palm of your hand summarizing what we need to strengthen HIV Prevention efforts. Using for example:

More condoms, Emergency contraception, Involvement, Equal Access, Invest in HIV Prevention, Ending Harm Reduction, Pre-exposure prophylaxis (PrEP), Rights for women and girls.
